

Engineering Challenge Cup 2008

Bulletin 01

Dear Sailors,

First of all we would like to thank John Hall Hall and his crew for the great event we all had in Goçek Area. Of course also many thanks to everyone who helped John to create this fantastic week in Turkey.

After we came home we first enjoyed all the spontaneous responses to our victory of many fellow sailors and soon we realised that it is our turn to do the job. We are lucky that John Hall Hall is supporting us with the start of the organisation. John and your team, many thanks again for the fabulous week in Turkey!

ECC Committee

Now the team has the honour to create such a great week in 2008. Our team has taken up the challenge and we have started to set up the program for 2008. We are extreme happy with the commitment of HERTEL
