BULLETIN 10 • APRIL 2008

24-4-2008

FROM THE COMMITTEE

Dear Sailors,

8 days to go for ECC 2008

We did send you bulletin no. 9 which was intended to be the last bulletin before we met in Bodrum for ECC 2008. We also send you the skippers boxes with the logbook, the goodies and instructions for marking the boats.

We have received all kind of positive reactions from the skippers, specially on the quality of the logbook, thanks for your words. Also thanks to the perceptivity of some skippers who informed us of some imperfections in the logbook as well as sizes of clothing.

To correct this we like to inform you as follows.

Logbook

The data of way point no. 9 is not correct. **The position of way point 9 is 37.03.00 N, 27.11.80 E.**

Please correct this in your logbook!!!

In "participants 2008" boat no. 64 is boat model 49 and boat no. 65 is boat model 42c.

Crew information

Some skippers send crew information which is not published in the logbook. Special attention will be given to this in this bulletin. We also like to take this opportunity to present the crew of Adriatic Holidays.

Incidental crew changes after publication of the logbook will not be announced.

Clothing sizes

This will be corrected (if possible) in Bodrum at check-in.

Regards and see you next week.

Pieter van Beuzekom, Commodore ECC 2008
